

## Meteorological measurements in the Arctic

### WORKSHEET FOR ONLINE LESSON

**Task 1.** Fill in the missing letters.

	P									N
--	---	--	--	--	--	--	--	--	--	---

The largest Island of the Svalbard archipelago, where the Polish Polar Station is located.

	O						D
--	---	--	--	--	--	--	---

Name of the Polish Polar Station coming from the name of the fjord in which it is located.

	R				
--	---	--	--	--	--

The area surrounding the north pole, the kingdom of the polar bear.

S							K	
---	--	--	--	--	--	--	---	--

Prof. Stanisław ..... - the Polish Polar Station is named after him.

**Task 2.** Match the appropriate measuring instruments to the individual meteorological parameters. Type their name and the photo number on which these instruments are presented.

Air temperature – ..... Fig. ....

Atmospheric – ..... Fig. ....

Air humidity – ..... Fig. ....

UV radiation – ..... Fig. ....

Wind speed – ..... Fig. ....

Solar radiation – ..... Fig. ....

Amount of precipitation – ..... Fig. ....

#### Meteorological instruments:

heliograph thermometer barometer radiometer anemometer hygrometer pluviometer
